Comprehensive study guides including key topics, chapter notes section, true/false and multiple choice questions with answer key, map evaluation exercises, and essay questions.

From one of America's most inspiring leaders, a book about the core truths that unite us and how best to act upon them. The daughter of immigrants and civil rights activists, Senator Kamala Harris was raised in an Oakland, California, community that cared deeply about social justice. As she rose to prominence as one of the political leaders of our time, her experiences would become her guiding light as she grappled with an array of complex issues and learned to bring a voice to the voiceless. Now, in *The Truths We Hold*, she reckons with the big challenges we face together. Drawing on the hard-won wisdom and insight from her own career and the work of those who have most inspired her, she communicates a vision of shared struggle, shared purpose, and shared values as we confront the great work of our day. Book jacket.

In the bestselling tradition of Bill Bryson and Tony Horwitz, Rinker Buck's *The Oregon Trail* is a major work of participatory history: an epic account of traveling the 2,000-mile length of the Oregon Trail the old-fashioned way, in a covered wagon with a team of mules—which hasn't been done in a century—that also tells the rich history of the trail, the people who made the migration, and its significance to the country. Spanning 2,000 miles and traversing six states from Missouri to the Pacific Ocean, the Oregon Trail is the route that made America. In the fifteen years before the Civil War, when 400,000 pioneers used it to emigrate West—historians still regard this as the largest land migration of all time—the trail united the coasts, doubled the size of the country, and laid the groundwork for the railroads. The trail years also solidified the American character: our plucky determination in the face of adversity, our impetuous cycle of financial bubbles and busts, the fractious clash of ethnic populations competing for the same jobs and space. Today, amazingly, the trail is all but forgotten. Rinker Buck is no stranger to grand adventures. The New Yorker described his first travel narrative, *Flight of Passage*, as "a funny, cocky gem of a book," and with *The Oregon Trail* he seeks to bring the most important road in American history back to life. At once a majestic American journey, a significant work of history, and a personal saga reminiscent of bestsellers by Bill Bryson and Cheryl Strayed, the book tells the story of Buck's 2,000-mile expedition across the plains with tremendous humor and heart. He was accompanied by three cantankerous mules, his boisterous brother, Nick, and an "incurably filthy" Jack Russell terrier named Olive Oyl. Along the way, Buck dodges thunderstorms in Nebraska, chases his runaway mules across miles of Wyoming plains, scouts more than five hundred miles of nearly vanished trail on foot, crosses the Rockies, makes desperate fifty-mile forced marches for water, and repairs so many broken wheels and axels that he nearly reinvents the art of wagon travel itself. Apart from charting his own geographical and emotional adventure, Buck introduces readers to the evangelists, shysters, natives, trailblazers, and everyday dreamers who were among the first of the pioneers to make the journey west. With a rare narrative power, a refreshing candor about his own weakness and mistakes, and an extremely attractive obsession for history and travel, *The Oregon Trail* draws readers into the journey of a lifetime.

Making learning fun and interactive builds excitement for your social studies students. This book includes game-formatted activities for the study of important events in American history such as Colonial America, The American Revolution, American Indian Experience, The Civil War, the Oregon Trail, Immigration, and the Civil Rights Movement. These hands-on activities are aligned to state and national standards and supports college and career readiness skills. The hands-on lessons foster engagement, teamwork, creativity, and critical thinking. In addition to history-based lessons, this resource includes grading rubrics and ideas for assessment. The games in *Hands-on History Activities* will help you take an active approach to teaching while inspiring your students to make their own explorations of history.

More than five years in the making, based on hundreds of interviews and access to previously unavailable documents, and infused with irresistible storytelling charm, Bob Spitz's REAGAN stands fair to be the first truly post-partisan biography of our 40th President, and thus a balm for our own bitterly divided times. It is the quintessential American triumph, brought to life with cinematic vividness—a young man is born into poverty and raised in a series of flyspeck towns in the Midwest by a pious mother and a reckless, alcoholic, largely absent father. Severely near-sighted, the boy lives in his own world, a world of the popular books of the day, and finds his first brush with popularity, even fame, as a young lifeguard. Thanks to his first great love, he imagines a way out, and makes the extraordinary leap to go to college, a modest school by national standards, but an audacious presumption in the context of his family's station. From there, the path is only very dimly lit, but it leads him, thanks to his great charm and greater luck, to a solid career as a radio sportscaster, and then, astonishingly, fatefully, to Hollywood. And the rest, as they say, is history. Bob Spitz's REAGAN is an absorbing, richly detailed, even revelatory chronicle of the full arc of Ronald Reagan's epic life - giving full weight to the Hollywood years, his transition to politics and rocky but ultimately successful run as California governor, and ultimately, of course, his iconic presidency, filled with storm and stress but climaxing with his peace talks with the Soviet Union that would serve as his greatest legacy. It is filled with fresh assessments and shrewd judgments, and doesn't flinch from a full reckoning with the man's strengths and limitations. This is no hagiography- Reagan was never a brilliant student, of anything, and his disinterest in hard-nosed political scheming, while admirable, meant that this side of things was left to the other people in his orbit, not least his wife Nancy, sometimes this delegation could lead to chaos, and worse. But what emerges as a powerful signal through all the noise is an honest, inherent sweetness, a gentleness of nature and willingness to see the good in people and in this country, that proved to be a tonic for America in his time, and still is in ours. It was famously said that FDR had a first-rate disposition and a second-rate intellect. Perhaps it is no accident that only FDR had as high a public approval rating leaving office as Reagan did, or that in the years since Reagan has been closing in on FDR on rankings of Presidential greatness. Written with love and irony, which in a great biography is arguably the same thing, Bob Spitz's masterpiece will give no comfort to partisans at either extreme; for the rest of us, it is cause for celebration.

Journey of an American Muslim is an epic journey into the life of the author. It's a biography that is uncompromising in its authenticity and honesty. Muslims and non-Muslims will appreciate its candor as the author shares his experiences in the four phases of his development into his life as a Muslim in America. In this book you will discover: -The major influences that encouraged the Author to study and later become a Muslim. -How the Author transitioned from being a very "zealous" Muslim in the beginning, to discovering "spirituality" while taking more risks in his practice of the Muslim life, to becoming an open minded "truth seeker" who happens to be Muslim. -In candid detail how the Author survived multiple marriages (learning experiences), the loss of two good paying professional jobs, foreclosure of his home and working at Wal-Mart for 3 1/2 years earning what he considers "survival income." Journey of an American Muslim is a personal journey and an odyssey of major proportions for any human being. Muslim or non-Muslim, to have to experience. One wonders how one could survive such a personal drama, financial upheaval and professional setbacks. This author not only experienced the epic journey, but lived to tell about it.
