almost entirely devoted to linear problems, but the unifying concepts of linear space are fully developed after the student is exposed to a number of practical mathematical techniques.

Butkov, Mathematical Physics | Pearson

Butkov does what physics teachers do. He cuts out the nonessential things a math professor would teach and tells you what you need to know to use the methods. Many physics authors are so afraid of being corrected over tiny points of rigor, they include a lot of stuff which serves no purpose except to confuse.
