Online Library Designing Community Based Development

Participation in community based development (CBD) depends on reversing control and accountability from central authorities to community organizations. Successful design requires tapping into local needs, understanding and building on the strengths of existing institutions, and defining the changes needed in intermediary implementing agencies to support community action.

Online Library Designing Community Based Development

Community-based program design is a social method for designing programs that enables social service providers, organizers, designers and evaluators to serve specific communities in their own environment. This program design method depends on the participatory approach of community development often associated with community-based social work, and is often employed by community organizations. From this approach, program designers assess the needs and resources existing within a community, and, i

Community-based program design - Wikipedia

The community project is an organized set of actions which codify the priority choices and desires of the community as a whole (not a single individual, faction, or power group within
