Ecofeminism is an environmental movement, born in the late 1970s and early 1980s, from the necessity to give the possibility to women to have an active participation in ecological issues. In the West, gender and environment are the main topics of a large literature, which relate these two elements in ideological terms.

feminist tenets of equality between genders, a revaluing of non-patriarchal or nonlinear structures, and a view of the world that respects organic processes, holistic connections, and the merits of intuition and collaboration.

Ecofeminism | sociology and environmentalism | Britannica
In their collective effort to resist extractivism, Amazonian women have drawn from elements of ecofeminist discourse and, in the process, situated their own claims within the broader indigenous territorial struggle. Ecofeminism has been transformed through this allyship as well, becoming more inclusive of indigenous women's perspectives.
