There is currently heightened interest in optimizing health care through the generation of new knowledge on the effectiveness of health care services. The United States must substantially strengthen its capacity for assessing evidence on what is known and not known about "what works" in health care. Even the most sophisticated clinicians and consumers struggle to learn which care is appropriate and under what circumstances. *Knowing What Works in Health Care* looks at the three fundamental health care issues in the United States--setting priorities for evidence assessment, assessing evidence (systematic review), and developing evidence-based clinical practice guidelines--and how each of these contributes to the end goal of effective, practical health care systems. This book provides an overall vision and roadmap for improving how the nation uses scientific evidence to identify the most effective clinical services. *Knowing What Works in Health Care* gives private and public sector firms, consumers, health care professionals, benefit administrators, and others the authoritative, independent information required for making essential informed health care decisions.

Safety Signs and Signals : The Health and Safety (Safety Signs and Signals) Regulations 1996: Guidance on Regulations

It is said that if the smell of the Himalayas creeps into a man's blood, he will return to the hills again and again, and will strive to live amongst them always. Ruskin Bond, master storyteller and connoisseur of the mysterious and macabre, shows how this love may persist to death and beyond. The stories in this collection are set amidst the mists and mellow magic of Bond's beloved mountains. The agents of the supernatural may be gentle like the fairy folk in 'On Fairy Hill', or malevolent like the well-dressed diners of 'The Prize'; humorous like the very proper witch, Miss Bellows, in 'The Black Cat', or tragic like the haunting Gulabi in 'Wilson's Bridge'. 'The Rakshasas' harks back to traditional hill spirits, while 'The Night of the Millennium' poises us tantalizingly on the brink of the future. Bond aficionados will meet familiar faces in 'Reunion at the Regal'. Rounding off this collection is a gripping mystery, 'Who Killed the Rani?', which is evocative of life in hill stations some twenty years ago. And over all the stories looms the benevolent or brooding presence of the Himalayas, described with Bond's inimitable lyricism.
