If you're going to create internal images to use as an antidote to anger, you first have to stop visualizing what's in front of you in the external environment. Closing your eyes is the first step in letting go — and you may find this difficult.

[How to Use Imagery as an Anger Management Technique - dummies](#)

Instead of imagining yourself in another positive situation, imagine yourself in the same situation that caused your anger, but without any feelings of anger. Imagine yourself in the same (or different) situation, but feeling a negative emotion other than anger (for example, sadness). Emotions compete with one another.

[Using Imagery to Move beyond Anger - dummies](#)

Guided imagery is a useful technique for managing stress and coping with difficult situations. In this technique, you imagine a scene, time, or place that is peaceful and that has an emotional connection with you. Step 1: Find a quiet place. Step 2: Choose your setting. Imagine yourself there, use all of your senses to immerse yourself in the experience, and include as many details as possible.

With the help of an instructor, guided meditation for anger will help you identify the feelings of anger and use mindfulness and focusing on the breath to better manage the thoughts and emotions associated with rage, resentment, frustration and of course, anger. Meditation will also help slow down our reactions to our anger and better respond to situations and people that may upset us or make us mad.

[Guided Meditation for Anger - Declutter The Mind](#)

Visualization and imagery (sometimes referred to as guided imagery) techniques offer yet another avenue for stress reduction. These techniques involve the systematic practice of creating a detailed mental image of an attractive and peaceful setting or environment. Guided imagery can be practiced in isolation, but it is frequently paired with physical relaxation techniques such as progressive muscle relaxation and massage.
