In this sequel to Learn Me Good, Jack Woodson (no longer a green behind the ears teacher) returns to recount another school year's worth of challenges, triumphs, and mishaps with a brand new cast of wild and crazy students. Six years have passed, and this time around, Jack gets a talking monkey sidekick, a beautiful love interest, and a top-secret undercover CIA assignment to Uranus. (Well, ONE of those things is true, anyway). There are witty quotes, riotous stories, and more twists and turns than M. Night Shyamalan's small intestine.Through email correspondence with Fred Bommerson, Jack talks about PTA fundraisers gone awry, unnatural food chains, and how any action can be made acceptable as long as "it's for science." With subject lines such as "Diarrhea of a Wimpy Kid," "Green Eggs and Math," and "Houston, we have a word problem," it's perfect for reading in small chunks or one long session.
