The sexy, action-packed first book in the #1 New York Times bestselling Court of Thorns and Roses series from Sarah J. Maas. When nineteen-year-old huntress Feyre kills a wolf in the woods, a terrifying creature arrives to demand retribution. Dragged to a treacherous magical land she knows about only from legends, Feyre discovers that her captor is not truly a beast, but one of the lethal, immortal faeries who once ruled her world. At least, he's not a beast all the time. As she adapts to her new home, her feelings for the faerie, Tamlin, transform from icy hostility into a fiery passion that burns through every lie she's been told about the beautiful, dangerous world of the Fae. But something is not right in the faerie lands. An ancient, wicked shadow is growing, and Feyre must find a way to stop it, or doom Tamlin-and his world-forever. From bestselling author Sarah J. Maas comes a seductive, breathtaking book that blends romance, adventure, and faerie lore into an unforgettable read.

First Enoch is an ancient Judean work that inaugurated the genre of apocalypse. Chapters 1-36 tell the story of the descent of angels called "Watchers" from heaven to earth to marry human women before the time of the flood, the chaos that ensued, and God's response. They also relate the journeying of the righteous scribe Enoch through the cosmos, guided by angels. Heaven, including the place and those who dwell there (God, the angels, and Enoch), plays a central role in the narrative. But how should heaven be understood? Existing scholarship, which presupposes "Judaism" as the appropriate framework, views the Enochic heaven as reflecting the temple in Jerusalem, with God's house replicating its architecture and the angels and Enoch functioning like priests. Yet recent research shows the Judeans constituted an ethnic group, and this view encourages a fresh examination of 1 Enoch 1-36. The actual model for heaven proves to be a king in his court surrounded by his courtiers. The major textual features are explicable in this perspective, whereas the temple-and-priests model is unconvincing. The author was a member of a nontemple, scribal group in Judea that possessed distinctive astronomical knowledge, promoted Enoch as its exemplar, and was involved in the wider sociopolitical world of their time.

Law in the Courts of Love traces the literary history and diversity of past legal systems. These 'minor jurisprudences' range from the spiritual laws of the courts of conscience to the code and judgements of love handed down by women's courts in medieval France. Professor Goodrich presents the 15th Century Courts of Love in Paris as one instance of an alternative jurisdiction drawn from the diversities of the legal and literary past. Their textual records are correspondingly mixed in genre, being in the form of poems, narratives, plays, treaties and judicial decisions. More broadly, these studies trace certain boundaries of modern law and make up one of many forms of legal knowledge which escape today's vision of a unitary law. The author believes that the unquestionable faith in a unity law and its distance from person and emotion is precisely what makes impossible the attention to the individual that justice ultimately requires. Law in the Courts of Love shows how the historical diversity of forms and procedures of law can competently form the basis for critical revisions of contemporary legal doctrine and professional practice. This book will be of interest to undergraduate and postgraduate students of law and literature, critical legal studies and legal history, or anyone wishing to specialise in feminist legal theory.
