undergraduate and graduate students because of its easy-to-understand analyses of basic combustion concepts and its introduction of a wide variety of practical applications that motivate or relate to the various theoretical concepts.

An Introduction to Combustion: Concepts and Applications ...

INTRODUCTION TO COMBUSTION (EGEE 430/ME 430) Our objective in this class is to introduce the basic concepts of combustion science and engineering by using the essential tools of stoichiometry, thermodynamics, kinetics and transport phenomena. We shall place special emphasis on the 'visualization' of the relevant equations.
