Have you ever loved someone and didn't even know it? That's the dilemma facing Felix Essien when he wakes from a coma to find he is married to the most beautiful woman he's ever known. He cannot remember her or their wedding.

Since the death of her mother, Gloria Rawlins' life has been a string of disappointments by the people she cares about; first by her father, and then in a series of disastrous relationships that have shattered pieces of her heart one after another. She knows she's no angel and refuses to make herself vulnerable to anyone again. Until one man threatens to strip away the wall shielding her heart. Henry Coker is not afraid of challenges. Abandoned by his father and raised by a single mother, he's had to work hard from the bottom up to prove himself to his peers and the world. But Gloria, the one person he desires above all others, remains out of reach until an opportunity presents itself and he has the chance to buy her from her father. Despite their incongruous arrangement, desire like theirs cannot be hidden and passion sizzles between them. But making someone fall in love may just be a challenge too far. Bound to Ransom is a story about breaking the cycle of self-destruction, finding redemption, and the powerful love that endures.

Lara Johnson is coping with the emotional scars of losing both parents in a tragic incident and facing the challenges of starting a new school. Getting involved in a relationship isn't on her priority list. Certainly not this illicit desire for a man, who demands the best from her, yet leaves her breathless in his presence. All Ike Thomas wants to do is to keep out of trouble and get through the one year internship required for his degree program. But trouble finds him, in the form of an intelligent and brave girl who turns his world upside down. Falling in love is forbidden. So why does it feel so right? A love like theirs cannot be denied. But catastrophe lies in wait and one night changes their lives forever. Bound to Fate is a story about surviving tragedy, forgiveness, and the overwhelming love that pulls through against the odds. In the aftermath of the 60s "Black is Beautiful" movement and publication of The Color Complex almost thirty years later the issue of skin color has mushroomed onto the world stage of social science. Such visibility has inspired publication of the Melanin Millennium for insuring that the discourse on skin color meet the highest standards of accuracy and objective investigation. This volume addresses the issue of skin color in a worldwide context. A virtual visit to countries that have witnessed a huge rise in the use of skin whitening products and facial feature surgeries aiming for a more Caucasian-like appearance will be taken into account. The book also addresses the question of whether using the laws has helped to redress injustices of skin color discrimination, or only further promoted recognition of its divisiveness among people of color and Whites. The Melanin Millennium has to do with now and the future. In the 20th century science including eugenics was given to and dominated by discussions of race category. Heretofore there remain social scientists and other relative to the issue of skin color loyal to race discourse. However in their interpretation and analysis of social phenomena the world has moved on. Thus while race dominated the 20th century the 21st century will emerge as a global community dominated by skin color and making it the melanin millennium.
