40 labs; supports and challenges students of all levels; classic labs give students a solid foundation in all lab procedures; design-your-own labs support students through the full range of inquiry, from developing testable hypotheses to submitting their conclusions for peer review.

Containing 52 tested and verified chemistry lab experiments, Laboratory Manual follows the chapter sequence and reinforces the concepts taught in Glencoe Chemistry: Matter and Change, but can be used with any chemistry text. Students record data and conclusions directly on lab worksheets; safety, chemical storage, and disposal guidelines are included.

Providing a total of 40 labs, the Laboratory Manual offers a traditional

and/or open-ended lab for every chapter in *Physics: Principles and Problems*. Teachers may choose to add to labs offered in the student edition or use the *Laboratory Manual* in lieu of the text labs. It can also be used with any other physics program as a source of additional labs. A *Teacher Edition* is also available.

Biology: The Dynamics of Life, Laboratory Manual

The student edition *Laboratory Manual* contains popular, tested labs and supports hands-on experience. Labs are designed to enhance essential earth science skills.
