This foam pool float comes with honeycomb closed-cell texture on one side and glossy smooth texture on the other. The super-soft buoyant foam of this mattress also offers an excellent bed for resting on a watery surface. Moreover, the integral steel frame of this pool float offers support during a floating condition.

## Froth Flotation and Gold Extraction - Manhattan Gold & Silver

Froth flotation is a process that selectively separates materials based upon whether they are water repelling (hydrophobic) or have an affinity for water (hydrophilic). Importantly, the word flotation is also used in the literature to describe the process in density separation in which lighter microplastics float to the surface of a salt solution.
