Processes II

What is MRP II? The term manufacturing resource planning refers to an information system that is used by businesses involved in manufacturing goods. The integrated information system facilitates the decision-making process for management by centralizing, integrating, and processing information related to the manufacturing process.

Manufacturing Resource Planning - Overview, MRP II, Examples

Manufacturing Resource Planning (MRP II) is an integrated information system used by businesses.

Unit-I deals with Basic-
Metals & alloys: Properties
and Applications. Units-II
and III cover major
manufacturing processes such
as Metal Forming & Casting
and Machining & Welding. The
last Unit-IV covers misc.
and left-over but relevant
topics. The details of
topics are given in the
syllabus and on the content
pages. The book is intended
for engineers of any
specialization to present an
overview of manufacturing
