If someone hangs a stop sign upside down or paints crooked lines on a highway, count on someone else to snap a photo and post it online. You Had One Job! is a collection of hilarious pictures features job-related disasters and general ineptitudes. All of these new, never-before-seen images will be accompanied by witty captions.

This is not just a sports story. This is not just a political story, nor is this just a pop culture story. This is a story about a script written in 1984 about a star baller, who cares deeply about his community, has no father in the home, with the last name James who skipped college and went straight to the pros just like Lebron James. I believe and will testify to all facts herein. I believe that this is a prophetic message to our nation sent 35 years ago from God for today. Lace-up your Nike's as we take a 35 year journey starting in 1984, the greatest year in NBA off-court history. Michael Jordan was drafted. Lebron was born in Akron, Ohio, and a Stern new commissioner named David stepped up to the plate. The story timelines MJ's career, Lebron's life, and the NBA, quilted together with pop culture,

politics, and the life of the young Scribe (writer) who copyrighted the script when he was 23 years old. We end the timeline in 2018. We, then, shoot forward 23 years with a bold prediction of America's future around the season 2040-2041, and now, We Are All Witnesses!

"Scribble, the book's main character, never thought he was different until he met his first drawing. Then, after being left out because he didn't look like everyone else, Scribble teaches the drawings how to accept each other for who they are. Which enables them to create amazing art together!"--

A timely call-to-arms from a Silicon Valley pioneer. You might have trouble imagining life without your social media accounts, but virtual reality pioneer Jaron Lanier insists that we're better off without them. In *Ten Arguments for Deleting Your Social Media Accounts Right Now*, Lanier, who participates in no social media, offers powerful and personal reasons for all of us to leave these dangerous online platforms. Lanier's reasons for freeing ourselves from social media's poisonous grip include its tendency to bring out the worst in us, to make politics terrifying, to trick us with illusions of popularity and success, to twist our relationship with the truth, to disconnect us from other people even as we are more "connected" than ever, to rob us

of our free will with relentless targeted ads. How can we remain autonomous in a world where we are under continual surveillance and are constantly being prodded by algorithms run by some of the richest corporations in history that have no way of making money other than being paid to manipulate our behavior? How could the benefits of social media possibly outweigh the catastrophic losses to our personal dignity, happiness, and freedom? Lanier remains a tech optimist, so while demonstrating the evil that rules social media business models today, he also envisions a humanistic setting for social networking that can direct us toward a richer and fuller way of living and connecting with our world.

For all the discussion in the media about creationism and 'Intelligent Design', virtually nothing has been said about the evidence in question - the evidence for evolution by natural selection. Yet, as this succinct and important book shows, that evidence is vast, varied, and magnificent, and drawn from many disparate fields of science. The very latest research is uncovering a stream of evidence revealing evolution in action - from the actual observation of a species splitting into two, to new fossil discoveries, to the deciphering of the evidence stored in our genome. Why Evolution is True weaves together the many threads of modern work in genetics, palaeontology,

geology, molecular biology, anatomy, and development to demonstrate the 'indelible stamp' of the processes first proposed by Darwin. It is a crisp, lucid, and accessible statement that will leave no one with an open mind in any doubt about the truth of evolution.

Tag along on this New York Times bestselling “witty, entertaining romp” (The New York Times Book Review) as Eric Weiner travels the world, from Athens to Silicon Valley—and back through history, too—to show how creative genius flourishes in specific places at specific times. In this “intellectual odyssey, traveler’s diary, and comic novel all rolled into one” (Daniel Gilbert, author of *Stumbling on Happiness*), acclaimed travel writer Weiner sets out to examine the connection between our surroundings and our most innovative ideas. A “superb travel guide: funny, knowledgeable, and self-deprecating” (The Washington Post), he explores the history of places like Vienna of 1900, Renaissance Florence, ancient Athens, Song Dynasty Hangzhou, and Silicon Valley to show how certain urban settings are conducive to ingenuity. With his trademark insightful humor, this “big-hearted humanist” (The Wall Street Journal) walks the same paths as the geniuses who flourished in these settings to see if the spirit of what inspired figures like Socrates, Michelangelo, and Leonardo remains. In these places, Weiner asks, “What was in the air, and can we bottle

it?" "Fun and thought provoking" (Miami Herald), The Geography of Genius reevaluates the importance of culture in nurturing creativity and "offers a practical map for how we can all become a bit more inventive" (Adam Grant, author of Originals).

The actor covers his life after leaving the television series "Star Trek: the Next Generation," describing the pitfalls associated with being a former child star and his decision to launch his weblog in 2001.

Three bestselling authors. Two delightful novels. One terrific collection! From Julia Quinn, author of the Bridgerton series, now streaming on Netflix—writing along with close friends and popular authors Eloisa James and Connie Brockway—comes THE LADIES MOST... a duo of cleverly crafted novels, The Lady Most Likely and The Lady Most Willing, together for the first time. THE LADY MOST LIKELY Hugh Dunne, the Earl of Briarly, needs a wife, so his sister hands him a list of delectable damsels and promises to invite them—and a few other gentlemen—to her country house for what is sure to be the event of the season. Hugh will have time to woo whichever lady he most desires. Unless someone else snatches her first. The invitation list includes: The always outspoken Miss Katherine Peyton The impossibly beautiful

(and painfully shy) Miss Gwendolyn Passmore The widowed Lady Georgina Sorrell (who has no plans to marry, ever) And your hostess, Lady Carolyn Finchley, an irrepressible matchmaker with romantic plans for every last one of them—especially THE LADY MOST LIKELY to marry an eligible Earl. THE LADY MOST WILLING Taran Ferguson, laird of his clan, is determined that his ancient (if not so honorable) birthright be secured before he dies. When both his nephews refuse to wed, he takes matters into his own hands, raiding an English lord's Christmas ball and making off with four lovely potential brides (and one very irate duke). When his nephews, the Comte de Rocheforte and the Earl of Oakley, arrive for their annual holiday visit, they are drawn into a matchmaking party, of sorts. Among the unwitting guests are: Miss Fiona Chisholm, a beauty with a scandalous past Lady Cecily Tarleton, a lovely heiress—but she's English Miss Catriona Burns, a lady with no name or fortune, so clearly someone made a mistake! As the snow piles up outside the highland castle, and the guests are forced to pass the time together, the initial dismay turns to unanticipated attractions and then irresistible passions - and indeed, there might be one LADY MOST WILLING to marry a Scottish lord.
