designed to be taken after Pimsleur's French Level 4. Thirty 30-minute lessons totaling 15 hours of spoken French language learning - plus 75 minutes of reading practice, reading, and hearing a short story - allow you to read French for pleasure.

The Pimsleur® Method teaches speaking and understanding right from the start For almost 50 years, in over 50 languages, the Pimsleur® Method has been recognized by experts worldwide as one of the fastest and most effective ways to learn to speak another language. With Pimsleur you will learn French in the same way you learned your first language as a child, acquiring the vocabulary of the new language, along with the melody, rhythm, and intonation of French as used in everyday conversation. The Science of Memory Dr. Paul Pimsleur's research on memory was one of his most significant achievements: he discovered that if reminded of new words and information at gradually increasing intervals of time, the learners would remember the words or information for increasingly longer periods. Dr. Pimsleur documented that the acquisitions would actually move from short-term into long-term, or permanent, memory. The Reading Program Pimsleur Language Programs use the same revolutionary learning Method to teach you to read, as well as to speak. You will start by sounding out French, learning to associate the new sound system to the English alphabet you know. Gradually you will learn to look at the words and see them with "French eyes." And you will learn to read French without an English accent.

This book, the first in a series, should be the first novel you read in French! Reading a book in French can be difficult, even for advanced students. French novels are usually full of idiomatic expressions. They use complicated tenses, complex sentence structures, and often slang. This book is in simple French. It's about the joys and the frustrations of an adult learning French. It includes a good dose of humor, a few exercises, and illustrations. Note: this book contains adult language. A school edition of the book without adult language entitled *Oh Là Là, It's Not Easy Learning French* is also available on Amazon. The book has two sections, allowing more levels of French students to enjoy it. Section 1 has the story written completely in French, and includes grammar exercises. Section 2 contains a list of the more difficult vocabulary translated into English and the complete text in English so students can check their comprehension.

Benny Lewis, who speaks over ten languages—all self-taught—runs the largest language-learning blog in the world, *Fluent In 3 Months*. Lewis is a full-time "language hacker," someone who devotes all of his time to finding better, faster, and more efficient ways to learn languages. *Fluent in 3 Months: How Anyone at Any Age Can Learn to Speak Any Language from Anywhere in the World* is a new blueprint for fast language learning. Lewis argues that you don't need a great memory or "the language gene" to learn a language quickly, and debunks a number of long-held beliefs, such as adults not being as good of language learners as children.

NATIONAL BESTSELLER • For anyone who wants to learn a foreign language, this is the method that will finally make the words stick. "A brilliant and thoroughly modern guide to learning new languages."—Gary Marcus, cognitive psychologist and author of the New York Times bestseller *Guitar Zero*

At thirty years old, Gabriel Wyner speaks six languages fluently. He didn't learn them in school—who does? Rather, he learned them in the past few years, working on his own and practicing on the subway, using simple techniques and free online resources—and here he wants to show others what he's discovered. Starting with pronunciation, you'll learn how to rewire your ears and turn foreign sounds into familiar sounds. You'll retrain your tongue to produce those sounds accurately, using tricks from opera singers and actors. Next, you'll begin to tackle words, and connect sounds and spellings to imagery rather than translations, which will enable you to think in a foreign language. And with the help of sophisticated spaced-repetition techniques, you'll be able to memorize hundreds of words a month in
