sunlight always appear in the section of sky directly opposite the sun. Rainbows can be full circles.

Rainbow - Wikipedia

This is why the sky above the primary rainbow looks a great deal darker than the sky below it (see image). About 10° above the main rainbow, the doubly reflected sunlight of the second rainbow reaches your eyes, so the sky above that is a little brighter again, creating the impression of a dark band of sky sandwiched between the two rainbows.

Mark Twain finally tells all in *Playing with Myself*, a memoir sure to cause more than a few readers to begin singing one of his greatest hits like “A Spoonful of Clorox” or “Cover Your Freakin’ Face.” As Randy has said, “There’s so much fake news out there about me. I can’t wait to set the record straight and finally give people a peek behind the green screen.” And set the record straight he does. *Playing with Myself* is a first-hand account of the journey that led Randy Rainbow from his childhood as the over-imaginative, often misunderstood little boy who carried a purse in the second grade to his first job on Broadway as the host at Hooters and on to the creation of his trademark comedy character.
