Scientific Python is a significant public domain alternative to expensive proprietary software packages. This book teaches from scratch everything the working scientist needs to know using copious, downloadable, useful and adaptable code snippets. Readers will discover how easy it is to implement and test non-trivial mathematical algorithms and will be guided through the many freely available add-on modules. A range of examples, relevant to many different fields, illustrate the language's capabilities. The author also shows how to use pre-existing legacy code (usually in Fortran77) within the Python environment, thus avoiding the need to master the original

code. In this new edition, several chapters have been re-written to reflect the IPython notebook style. With an extended index, an entirely new chapter discussing SymPy and a substantial increase in the number of code snippets, researchers and research students will be able to quickly acquire all the skills needed for using Python effectively.

Soviet socialism was based on paradoxes that were revealed by the peculiar experience of its collapse. To the people who lived in that system the collapse seemed both completely unexpected and completely unsurprising. At the moment of collapse it suddenly became obvious that Soviet life had always seemed simultaneously eternal and stagnating, vigorous and ailing, bleak and full of

promise. Although these characteristics may appear mutually exclusive, in fact they were mutually constitutive. This book explores the paradoxes of Soviet life during the period of "late socialism" (1960s-1980s) through the eyes of the last Soviet generation. Focusing on the major transformation of the 1950s at the level of discourse, ideology, language, and ritual, Alexei Yurchak traces the emergence of multiple unanticipated meanings, communities, relations, ideals, and pursuits that this transformation subsequently enabled. His historical, anthropological, and linguistic analysis draws on rich ethnographic material from Late Socialism and the post-Soviet period. The model of Soviet socialism that emerges provides an alternative to binary accounts that describe that system as a dichotomy of official culture and unofficial culture, the state and the people,

public self and private self, truth and lie--and ignore the crucial fact that, for many Soviet citizens, the fundamental values, ideals, and realities of socialism were genuinely important, although they routinely transgressed and reinterpreted the norms and rules of the socialist state.

This is the gripping story of a forgotten Russia in turmoil, when the line between government and organized crime blurred into a chaotic continuum of kleptocracy, vengeance and sadism. It tells the tale of how, in the last days of 1917, a fugitive Cossack captain bravely led seven cohorts into a mutinous garrison at Manchuli, a squalid bordertown on Russia's frontier with Manchuria. The garrison had gone Red, revolted against its officers, and become a dangerous, ill-disciplined mob. Nevertheless, Cossack Captain Grigori Semionov cleverly harangued the garrison

into laying down its arms and boarding a train that carried it back into the Bolsheviks' tenuous territory. Through such bold action, Semionov and a handful of young Cossack brethren established themselves as the warlords of Eastern Siberia and Russia's Pacific maritime provinces during the next bloody year. Like inland pirates, they menaced the Trans-Siberian Railroad with fleets of armoured trains, Cossack cavalry, mercenaries and pressgang cannon fodder. They undermined Admiral Kolchak's White armies, ruthlessly liquidated all Reds, terrorized the population, sold out to the Japanese, and antagonized the American Expeditionary Force and Czech Legion in a frenzied orchestration of the Russian Empire's gotterdammerung. Historians have long recognized that Ataman Semionov and Company were a nasty lot. This book details precisely how

nasty they were.

Lev Loseff (1937), der Leningrad 1976 verlassen musste und seit 1979 in Hannover, New Hampshire am Dartmouth College in den USA als Professor of Russian Language and Literature lehrt, hat u.a. Werke von E. Švarc, N. Olejnikov und M. Bulgakov herausgegeben. In seiner ersten grossen Monographie "On the Beneficence of Censorship: Aesopian Language in Modern Russian Literature" analysiert Loseff an Werken von Švarc, Solženicyn, Evtušenko u.a. die aus der Auseinandersetzung mit der Zensur gebotenen stilistischen - auch bereichernden - Besonderheiten der modernen, in der Sowjetunion entstandenen russischen Literatur und veranschaulicht diese im Kontext von Werk, Autor und Epoche. Teilw. In kyrillischer Schrift.

It was into the famous Baring family of merchant bankers that Maurice Baring was born in 1874, the seventh of eight children. A man of immense subtlety and style, Baring absorbed every drop of culture his fortunate background gave him; in combination with his many natural talents and prolific writing this assured him a place in literary history.

Sex, Love, and Migration goes beyond a common narrative of women's exploitation as a feature of migration in the early twenty-first century, a story that features young women from poor countries who cross borders to work in low paid and often intimate labor. Alexia Bloch argues that the mobility of women is marked not only by risks but also by personal and social transformation as migration fundamentally reshapes women's

emotional worlds and aspirations. Bloch documents how, as women have crossed borders between the former Soviet Union and Turkey since the early 1990s, they have forged new forms of intimacy in their households in Moldova, Ukraine, Belarus, and Russia, but also in Istanbul, where they often work for years on end. *Sex, Love, and Migration* takes as its subject the lives of post-Soviet migrant women employed in three distinct spheres—sex work, the garment trade, and domestic work. Bloch challenges us to decouple images of women on the move from simple assumptions about danger, victimization, and trafficking. She redirects our attention to the aspirations and lives of women who, despite myriad impediments, move between global capitalist centers and their home communities.
