For centuries the world has been misled about the original source of the Arts and Sciences; for centuries Socrates, Plato and Aristotle have been falsely idolized as models of intellectual greatness; and for centuries the African continent has been called the Dark Continent, because Europe coveted the honor of transmitting to the world, the Arts and Sciences. It is indeed surprising how, for centuries, the Greeks have been praised by the Western World for intellectual accomplishments which belong without a doubt to the Egyptians or the peoples of North Africa.

Aristotle, Thales, and Pythagoras, who admit to the influence of Egyptian studies in their work, this edition sheds new light on traditional philosophical and historical thought. Originally published in 1954, this book features a new introduction.

In this Illustrated Edition of the book, Dr. James seeks to prove, among others things, that the Ancient Greeks were not the original authors of Greek philosophy, was mainly based on ideas and concepts that were borrowed without acknowledgment, and indeed stolen, from the ancient Egyptians. Aristotle made a library at Alexandria and plundered books, while his school occupied the building and used it as a research center.
