The Concept Of Man In

The concept of "man" is beyond grammar and logic. "Man" is an invention of society, in the same way that "being" is an invention of metaphysics. Citizenship has become the basis of the equality of people, albeit wrongly. Bias, not the concept of nationhood, has something to do with it.

The concept of man | Inquirer Opinion

Hailed at its first release as "exceptional among studies of Chinese philosophy," a work "combining philosophical acumen with sinological competence that raises the study of early Chinese thought to a new level of sophistication," The Concept of Man in Early China remains a staple in the study of early Chinese civilization. Addressing the very roots of Chinese culture and thought, this path-breaking work frequently compares concepts from the Confucian and Taoist traditions with those from ...

The Concept of Man in Contemporary China

The Concept of Man in Early China was hailed at its first release as "exceptional among studies of Chinese philosophy," a work "combining philosophical acumen with sinological competence that raises the study of early Chinese thought to a new level of sophistication." Deserving of renewed attention, this time-tested work will be of enduring value to younger generations of China scholars.

The Concept of Man in Early China

MAN It is an individual human. A man belonging to a particular category (as by birth, residence, membership, or occupation). A bipedal primate mammal (Homo sapiens) that is anatomically related to the great apes but distinguished especially by notable development of the brain with a resultant capacity for articulate speech and abstract reasoning, is usually considered to form a variable number of freely interbreeding races, and is the sole living representative of the hominid family.
