Sir Thomas Mun was an English writer on economics and is often referred to as the last of the early mercantilists. Most notably, he is known for serving as the director of the East India Company. Due to his strong belief in the state and his prior experience as a merchant, Mun took on a prominent role during the economic depression which began in 1620. To defend the East India Company and to regain England's economic stability, Mun published A Discourse of Trade from England unto the East-Indies

Thomas Mun, (baptized June 17, 1571, London, England-died c. July 21, 1641), English writer on economics who gave the first clear and vigorous statement of the theory of the balance of trade. Mun came into public prominence in England during the economic depression of 1620. Many people had blamed the East India Company for the economic downturn because the company financed its trade by exporting £30,000 in bullion on each voyage.

Mercantilism - Wikipedia

Against Malynes's recommendations were arrayed two formidable writers, Thomas Misselden and Thomas Mun-- the former more of a agitator, the latter more of a scholar, but both charter company men. Misselden and Mun admitted the benefit of specie inflow, but did not blame outflows on "evil financiers" and charter companies maintaining a separate exchange ratio for currency, but rather on the external balance of trade.
