The once-vast Hijaz Railway was originally designed to speed Muslim pilgrims from Damascus to the holy cities of Makkah and Medina but ended in ruins less than two decades after its start. Its sun-scalded remains can be seen today, cut adrift across northwestern Saudi Arabia in the form of sand-dusted rails, abandoned stations and rusted locomotives.

Railroads came late to the Middle East. By the end of the 19th century, there were just a few lines operating in the crumbling Ottoman Empire. Their military and political value had been recognized by far-sighted rulers, however, and this was the catalyst for the construction of a railway deep in the desert of the Hejaz region of what is now Saudi Arabia—a line that would be made famous in the West by Lawrence
