look at the Western idea of the Other. Looking at this concept through the lens of his own encounters in Africa, Asia and Latin America, and considering its formative significance for his own work, Kapuscinski traces how the West has understood the non-European from classical times to the present day. He observes how in the twenty-first century we continue to treat the residents of the Global South as hostile aliens, objects of study rather than full partners sharing responsibility for the fate of humankind. In our globalised but increasingly polarised world, Kapuscinski shows how the Other remains one of the most compelling ideas of our times.

In 1975, Angola was tumbling into pandemonium; everyone who could was packing crates, desperate to abandon the beleaguered colony. With his trademark bravura, Ryszard Kapuscinski went the other way, begging his way from Lisbon and comfort to Luanda—once famed as Africa's Rio de Janeiro—and chaos. Angola, a slave colony later given over to mining and plantations, was a promised land for generations of poor Portuguese. It had belonged to Portugal since before there were English-speakers in North America. After the collapse of the fascist dictatorship in Portugal in 1974, Angola was brusquely cut loose, spurring the catastrophe of a still-ongoing civil war. Kapuscinski plunged right into the middle of the drama, driving past thousands of haphazardly placed check-points, where using the wrong shibboleth was a matter of life and death; recording his impressions of the young soldiers—from Cuba, Angola, South Africa, Portugal—fighting a nebulous war with global repercussions; and examining the peculiar brutality of a country surprised and divided by its newfound freedom. Translated from the Polish by William R. Brand and Katarzyna Mroczkowska-Brand.

Reporting from such varied locations as postcolonial Africa, revolutionary Iran, the military dictatorships of Latin America and Soviet Russia, the Polish journalist and writer Ryszard Kapuscinski was one of the most influential eyewitness journalists of the twentieth century. During the Cold War, he was a dauntless investigator as well as a towering literary talent, and books such as *The Emperor and Travels with Herodotus* founded the new genre of 'literary reportage'. It was an achievement that brought him global renown, not to mention the uninvited attentions of the CIA. In this definitive biography, Artur Domosławski shines a new light on the personal relationships of this intensely charismatic, deeply private man, examining the intractable issue at the heart of Kapuscinski's life and work: the relationship and tension between journalism and literature. In researching this book, Domosławski, himself an award-winning foreign correspondent, enjoyed unprecedented access to Kapuscinski's private papers. The result traces his mentor's footsteps through Africa and Latin America, delves into files and archives that Kapuscinski himself examined, and records conversations with the people that he talked to in the course of his own investigations. Ryszard Kapuscinski is a meticulous, riveting portrait of a

A moving portrait of Africa from Poland's most celebrated foreign correspondent - a masterpiece from a modern master. Famous for being in the wrong places at just the right times, Ryszard Kapuscinski arrived in Africa in 1957, at the beginning of the end of colonial rule - the "sometimes dramatic and painful, sometimes enjoyable and jubilant" rebirth of a continent. *The Shadow of the Sun* sums up the author's experiences ("the record of a 40-year marriage") in this place that became the central obsession of his remarkable career. From the hopeful years of independence through the bloody disintegration of places like Nigeria, Rwanda and Angola, Kapuscinski recounts great social and political changes through the prism of the ordinary African. He examines the rough-and-ready physical world and identifies the true geography of Africa: a little-understood spiritual universe, an African way of being. He looks also at Africa in the wake of two epoch-making changes: the arrival of AIDS and the definitive departure of the white man. Kapuscinski's rare humanity invests his subjects with a grandeur and a dignity unmatched by any other writer on the Third World, and his unique ability to discern the universal in the particular has never been more powerfully displayed than in this work.

From the renowned journalist comes this intimate account of his years in the field, traveling for the first time beyond the Iron Curtain to India, China, Ethiopia, and other exotic locales. In the 1950s, Ryszard Kapuscinski finished university in Poland and became a foreign correspondent, hoping to go abroad - perhaps to Czechoslovakia. Instead, he was sent to India - the first stop on a decades-long tour of the world that took Kapuscinski from Iran to El Salvador, from Angola to Armenia. Revisiting his memories of traveling the globe with a copy of Herodotus' *Histories* in tow, Kapuscinski describes his awakening to the intricacies and idiosyncrasies of new environments, and how the words of the Greek historiographer helped shape his own view of an increasingly globalized world. Written with supreme eloquence and a constant eye to the global undercurrents that have shaped the last half-century, *Travels with Herodotus* is an exceptional chronicle of one man's journey across continents.

In *Shah of Shahs* Kapuscinski brings a mythographer's perspective and a novelist's virtuosity to bear on the overthrow of the last Shah of Iran, one of the most infamous of the United States' client-dictators, who resolved to transform his country into "a second America in a generation," only to be toppled virtually overnight. From his vantage point at the break-up of the old regime, Kapuscinski gives us a compelling history of conspiracy, repression, fanaticism, and revolution. Translated from the Polish by William R. Brand and Katarzyna Mroczkowska-Brand.

Ryszard Kapuscinski's last book, *The Soccer War* – a revelation of the contemporary experience of war -- prompted John le Carre to call the author "the conjurer extraordinary of modern reportage." Now, in *Imperium*, Kapuscinski gives us a work of equal emotional force and evocative power: a personal, brilliantly detailed exploration of the almost unfathomably complex Soviet empire in our time. He begins with his own childhood memories of the postwar Soviet occupation of Pinsk, in what was then Poland's eastern frontier ("something dreadful and incomprehensible...in this world that I enter at seven years of age"), and takes us up to 1967, when, as a journalist just starting out, he traveled across a snow-covered and desolate Siberia, and through the Soviet Union's seven southern and Central Asian republics, territories whose individual histories, cultures, and religions he found thriving even within the "stiff, rigorous corset of Soviet power." Between 1989 and 1991, Kapuscinski made a series of extended journeys through the disintegrating Soviet empire, and his account of these forms the heart of the book. Bypassing official institutions and itineraries, he traversed the Soviet territory alone, from the border of Poland to the site of the most infamous gulags in far-eastern Siberia (where "nature pals it up with the executioner"), from above the Arctic Circle to the edge of Afghanistan, visiting dozens of cities and towns and outposts, traveling more than 40,000 miles, venturing into the individual lives of men, women, and children in order to understand the collapsing but still various larger life of the empire. Bringing the book to a close is a collection of notes which, Kapuscinski writes, "arose in the margins of my journeys" -- reflections on the state of the ex-USSR and on his experience of having watched its fate unfold "on the screen of a television set...as well as on the screen of the country's ordinary, daily reality, which surrounded me during my travels." It is this "schizophrenic perception in two different dimensions" that enabled Kapuscinski to discover and illuminate the most telling features of a society in dire turmoil. *Imperium* is a remarkable work from one of the most original and sharply perceptive interpreters of our world -- galvanizing narrative deeply informed by Kapuscinski's limitless curiosity and his passion for truth, and suffused with his vivid sense of the overwhelming importance of history as it is lived, and of our constantly shifting places within it.

Part diary and part reportage, *The Soccer War* is a remarkable chronicle of war in the late twentieth century. Between 1958 and 1980, working primarily for the Polish Press Agency, Kapuscinski covered twenty-seven revolutions and coups in Africa, Latin America, and the Middle East. Here, with characteristic cogency and emotional immediacy, he recounts the stories behind his official press dispatches—searing firsthand accounts of the frightening, grotesque, and comically absurd aspects of life during war. *The Soccer War* is a singular work of journalism.

This account of the rise and fall of Ethiopian emperor Haile Selassie is “an unforgettable, fiercely comic, and finally compassionate book” (Salman Rushdie, Man Booker Prize-winning author). After Haile Selassie was deposed in 1974, Ryszard Kapu?ci?ski—Poland’s top foreign correspondent—went to Ethiopia to piece together a firsthand account of how the emperor governed his country, and why he finally fell from power. At great risk to himself, Kapu?ci?ski interviewed members of the imperial circle who had gone into hiding. The result is this remarkable book, in which Selassie’s servants and closest associates share accounts—humorous, frightening, sad, grotesque—of a man living amidst nearly unimaginable pomp and luxury while his people teetered between hunger and starvation. It is a classic portrait of authoritarianism, and a fascinating story of a forty-four-year reign that ended with a coup d’état in 1974.
