Welcome to Transistor, the new game from Supergiant Games, who previously developed Bastion. Transistor is a science-fiction based action-RPG, with a deep skill system that allows for a very varied customization of your battle style. This game features real time battles, but also includes a feature that allows you to cue up movement and attacks during fights, similar to VATS in the two newest Fallout games.

With Logan Cunningham, Ashley Lynn Barrett, Christopher Sapphire, Kristin Wilson. Transistor is a sci-fi themed action RPG that invites players to wield an extraordinary weapon of unknown origin as they fight through a stunning futuristic city.

[Transistor \(Video Game 2014\) - IMDb](#)

I recently played through this game and was so enthralled by it that I platinumed it This guide is a testament to that fact, I suppose Transistor was made by Supergiant Games, also known as the people who brought us Bastion many years ago. The game play is also fairly addicting as you are able to combine moves for different effects.
